

## LAMP\_01

The FL\_01 floor lamp has an airy appearance due to its thin frame and the vibrant plexiglass lampshade. Achieving a personalized touch is easy, as you can manipulate the lamp's angle by rotating the handmade brass detail at the top, a feature crafted in our workshop like the other parts of the lamp. Additionally, the lamp is available for customization in various finishing materials for the lampshade, including brass, aluminum, and plexiglass in a range of colors.
