EXPO

EXPO is the studio's classic and most versatile shelving system. Designed to adapt, evolve, and respond to different spaces and ways of living, it offers a flexible structure that can shift between library, bar, entrance unit, workspace, display wall, or room divider.

Available as fixed units or through a fully customized design process, EXPO offers different levels of flexibility according to the project's needs. Each composition brings together function and character, allowing the system to reflect the space it belongs to and the people who use it.

Fixed elements:

- Brass and Steel joint:
The steel profile can be made from 18*18 or 16*16 mm thick rods, with Epoxy powder coating finish (RAL colors).
- Brass rod 10 & 6 mm thick.
- 2 mm thick steel shelf with Epoxy powder coating finish (RAL colors).

a fully customized system designed
specifically for your space and needs

EXPO COLLECTION

Pre-designed configurations

Step 1 | Choose a Unit

Select the EXPO composition that best suits your space and requirements.

Step 2 | Add or Remove Elements

Customize the composition by adding or removing optional elements.

Step 3 | Select Materials & Finishes

Choose from our range of materials, colors, and finishing options to create a shelving system that fits your interior and personal style.

Step 4 | Order Confirmation & Payment

Once the composition, modules, and finishes have been finalized, we prepare the final quotation and confirm the order.

Step 5 | Production

The shelving system is manufactured in our workshop according to the approved specifications.

Step 6 | Delivery & Installation

Upon completion, our team delivers and installs the shelving system on site, ensuring every component is assembled and fitted according to the approved design.

UNIT A

Dimensions:

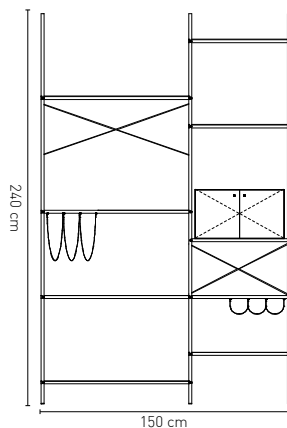

150W×240H×40D cm

Specification:

3 frames, 7 shelves,
3 leather wine bottle
holders, 3 leather
magazine holders and
a metal storage box (M)
with wooden hinged
doors.

Pricing:

26,700-30,300 nis
(including VAT)

UNIT B

Dimensions:

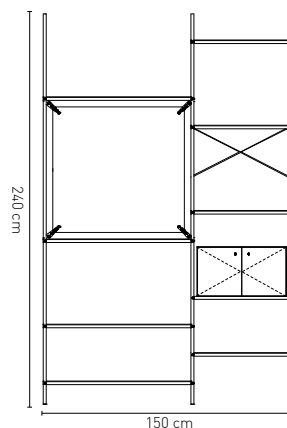

150W×240H×40D cm

Specification:

3 frames, 8 shelves,
steel division, 1 metal
storage box (M) with
wooden hinged doors.

Pricing:

22,500-26,700 nis
(including VAT)

UNIT C

Dimensions:

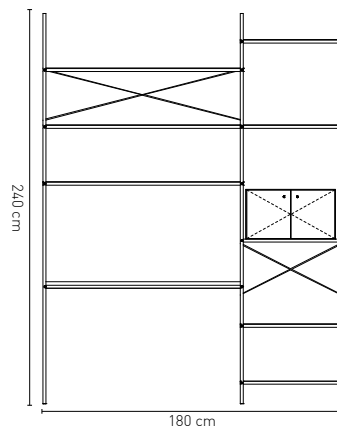

180W×240H×40/60D cm

Specification:

3 frames, 6 shelves,
wooden work desk,
1 metal storage box (M)
with wooden hinged
doors.

Pricing:

32,300-34,900 nis
(including VAT)

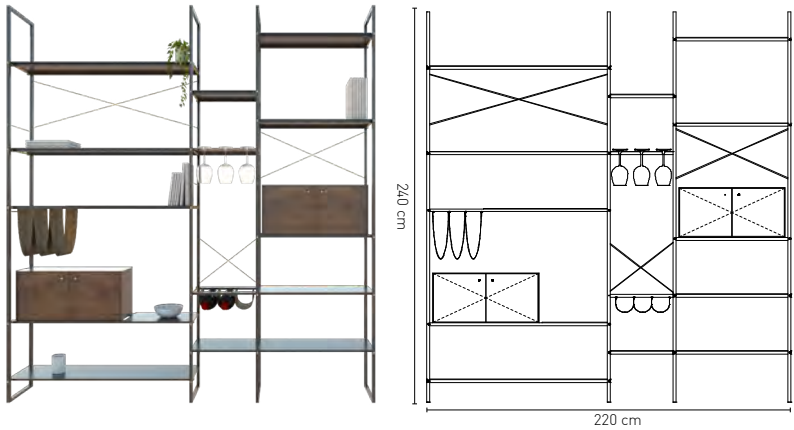

UNIT D

Dimensions:
220W×240H×40D cm

Specification:
4 frames, 10 shelves,
1 wine glasses shelf,
3 leather wine bottle
holders, 3 leather
magazine holders, 2
metal storage boxes
(M) with wooden hinged
doors and side brass
rods railing.

Pricing:
33,900-45,500 nis
(including VAT)

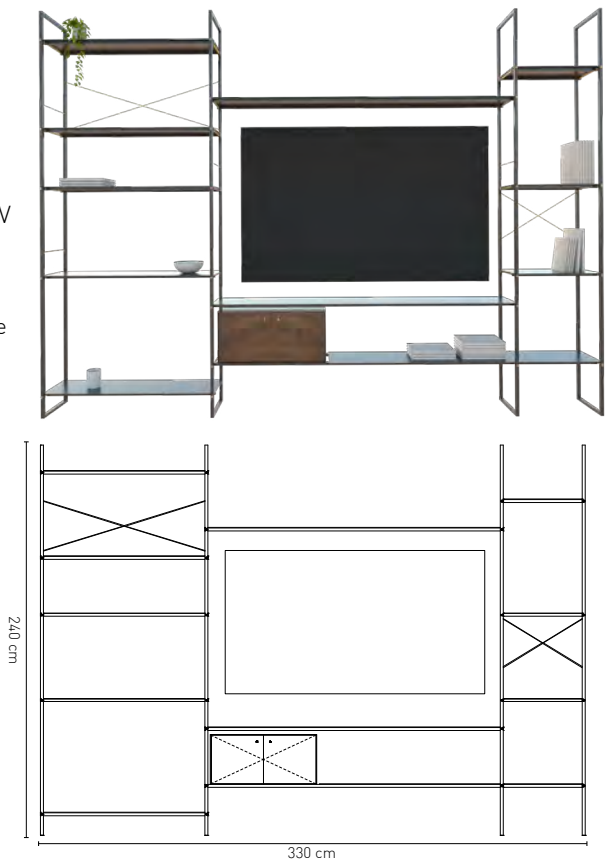

UNIT E

Dimensions:
330W×240H×40D cm

Specification:
4 frames, 11 shelves,
an open area for a TV
(up to 70 inches),
1 metal storage box
(M) with wooden
hinged doors and side
brass rods railing.

Pricing:
36,700-40,600 nis
(including VAT)

UNIT F

Dimensions:

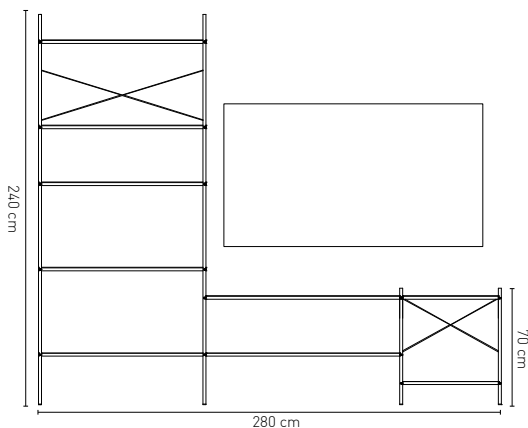

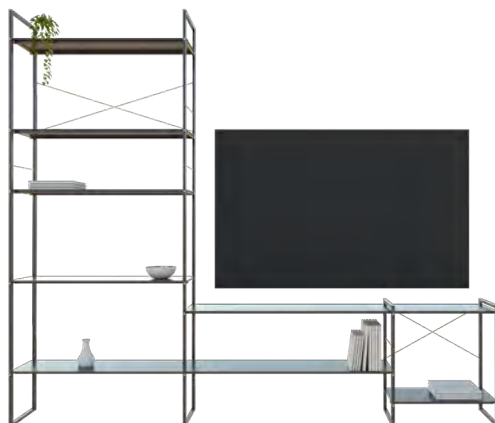

280W×240H×40D cm

Specification:

4 frames (L+S), 7 shelves and side brass rods railing.

Pricing:

26,300-28,900 nis
(including VAT)

UNIT G

Dimensions:

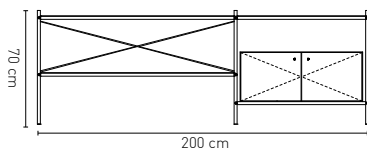

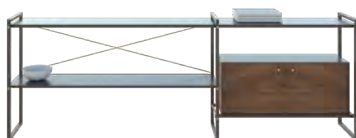

200W×70H×40D cm

Specification:

3 frames (L+S), 2 shelves, and 1 metal storage box (M) with wooden hinged doors.

Pricing:

14,900-18,800 nis
(including VAT)

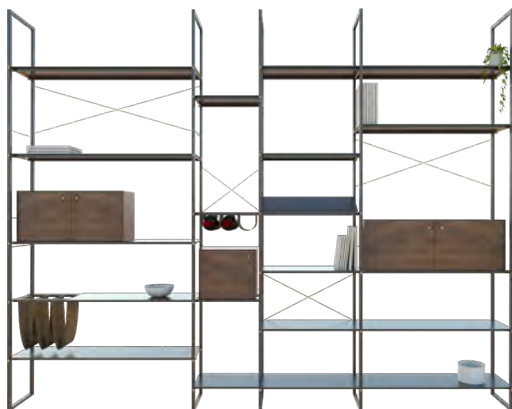

UNIT H

Dimensions:

300W×240H×40D cm

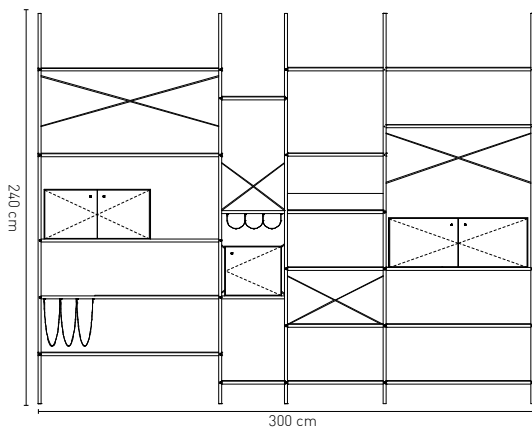

Specification:

5 frames, 11 shelves, 3 leather wine bottle holders, 3 leather magazine holders, book display shelf, 3 metal storage boxes (S+M) with wooden hinged doors and side brass rods railing.

Pricing:

51,00-63,200 nis
(including VAT)

UNIT I

Dimensions:

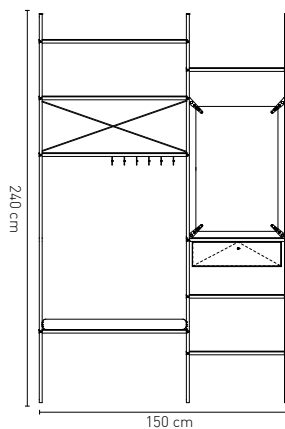

150W×240H×40D cm

Specification:

3 frames, 7 shelves, drawer with wooden front, upholstered seating bench, metal panel, and hanging hooks.

Pricing:

26,700-32,400 nis
(including VAT)

EXPO COLLECTION

Optional Additions

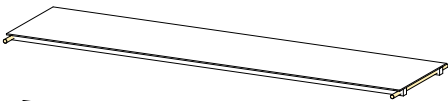

Additional elements:

- Wine glasses shelf
- Leather rack for wine bottles
- Leather rack for magazines
- Book display shelf
- bent shelf for artwork display
- Division elements from Leather/wood/steel/brass
- Metal box with hinged door (wood / metal)
- Alcohol bar box with wooden front (hinged door or flap door with serving tray)
- Steel hooks
- Lamp
- brass rail
- Upholstered seating area
- High drawer (wood/metal front)
- Low drawer (wood/metal front)
- Work desk surface (steel/wood)

EXPO COLLECTION

Optional Additions

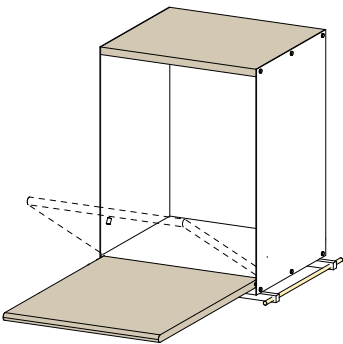

Large Shelf
(Steel and Brass)

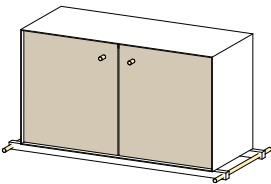

Medium Shelf
(Steel and Brass)

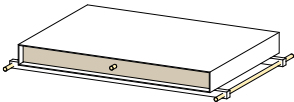

Small Shelf
(Steel and Brass)

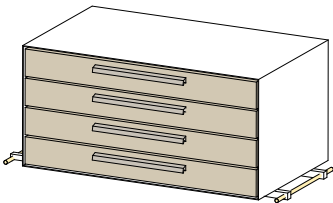

Alcohol Bar Box
(Metal frame, flap front that
opens into a serving tray)

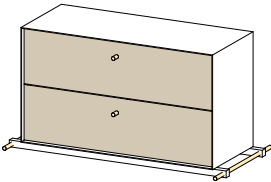

S/M/L Steel Box,
wooden/steel hinged
door

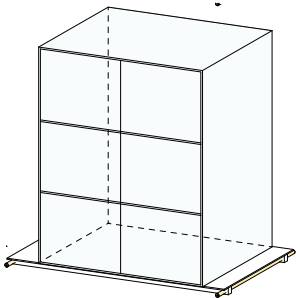

Steel Box with drawer
(steel/wooden front)

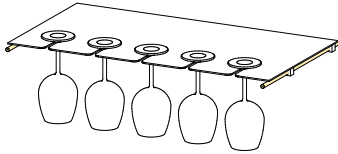

Steel Box with low
drawers
(steel/wooden front)

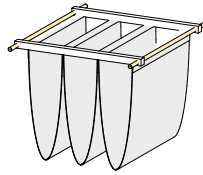

Steel Box with high
drawers
(steel/wooden front)

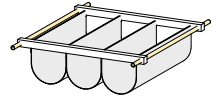

Glass Box

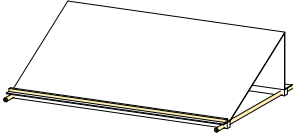

Wine glasses shelf
(Steel)

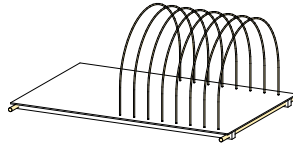

Magazine holders
(Leather)

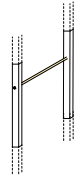

Wine bottle holders
(Leather)

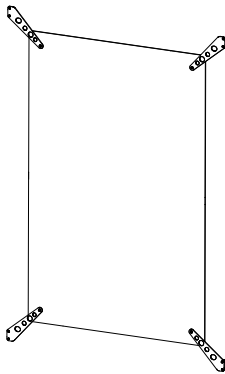

Book display shelf
(Steel)

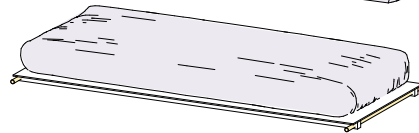

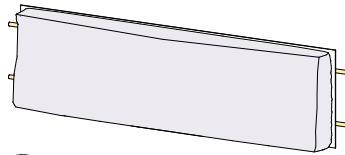

Brass Dividers
for records, books, and
magazines

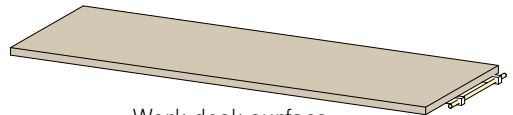

Brass side rod

Division element
(leather/steel/wood)

Upholstered bench
(leather/fabric, with or without backrest)

Work desk surface
(wood/steel)

Reinforcing beam
(For large sections)

EXPO TAILOR-MADE

Design Service

For projects that require a fully customized solution, we offer a dedicated design service based on the EXPO system and tailored to the client's space, needs, and vision. The process includes the following key steps:

Step 1 | Brief & Preliminary Budget

We begin with dimensions, functional needs, aesthetic preferences, and site conditions, then prepare a preliminary budget assessment.

Step 2 | Design & Simulations

After budget approval and an advance payment (10% of the total amount), we develop simulations and refine the design, finalizing layout, proportions, materials, finishes, and custom features.

Step 3 | Final Quotation

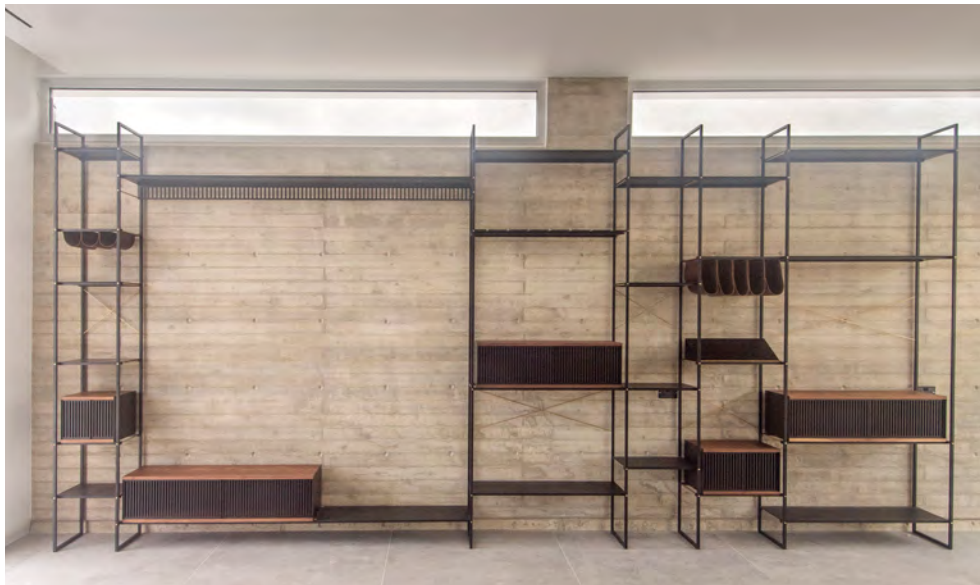

Once the design is approved, we provide a detailed quotation based on the final specifications.

Step 4 | Production & Installation

After final approval, the system is custom-made and installed on site by our team.

EXPO SLIM

A shelving system can hold more than just objects - It can tell the story of a person, reflect rituals, collections, books, travels, hospitality, and the quiet details of everyday life.

EXPO SLIM was designed as a lighter, more compact version of the studio's EXPO system, offering a modular solution with a refined architectural presence, even in smaller spaces. Whether placed beside a dining table, wrapping around a television, at an entrance, or used as a spatial divider, the system is designed for flexible storage, display, and everyday use.

Fixed elements:

- Brass and Steel joint: The steel profile are made from 10*10 mm thick rods, with Epoxy powder coating finish (RAL colors).
- Brass rod 3 mm thick.
- 2 mm thick steel shelf with Epoxy powder coating finish.

UNIT A

Dimensions:

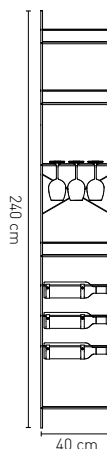

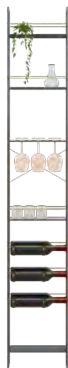

40W×240H×10D cm

Specification:

2 frames, 4 shelves, 1 wine glasses shelf, 3 leather wine holders and brass rods railing.

Pricing:

9,500-12,100 nis
(including VAT)

UNIT B

Dimensions:

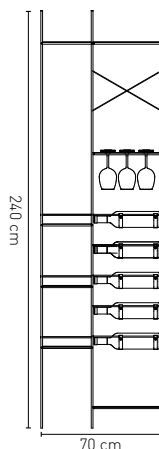

70W×240H×10D cm

Specification:

2 frames, 4 shelves, 1 wine glasses shelf, 3 leather wine holders and brass rods railing.

Pricing:

12,500-18,350 nis
(including VAT)

UNIT C

Dimensions:

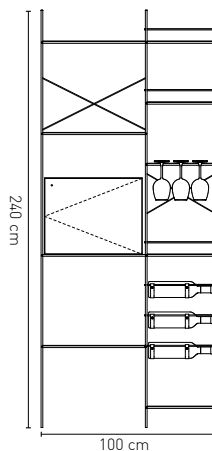

100W×240H×10/30D cm

Specification:

3 frames, 6 shelves, 1 wine glasses shelf, 3 leather bottle holders, an alcohol storage box made of a steel frame with a wooden hinged door, and brass rods railing.

Pricing:

16,200-20,300 nis
(including VAT)

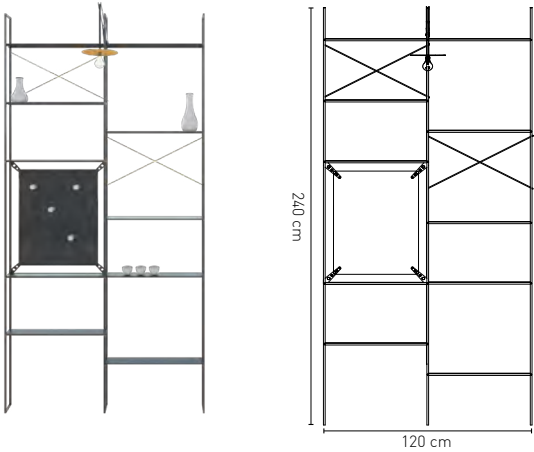

UNIT D

Dimensions:
120W×240H×10D cm

Specification:
3 frames, 8 shelves, and a steel panel.

Pricing:
15,300-21,750 nis
(including VAT)

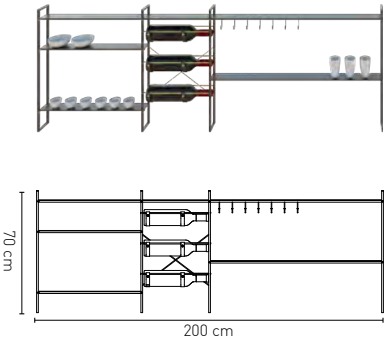

UNIT E

Dimensions:
200W×70H×10D cm

Specification:
4 frames, 4 shelves, 3 leather wine bottle holders, and 7 hooks.

Pricing:
15,000-24,500 nis
(including VAT)

UNIT F

Dimensions:

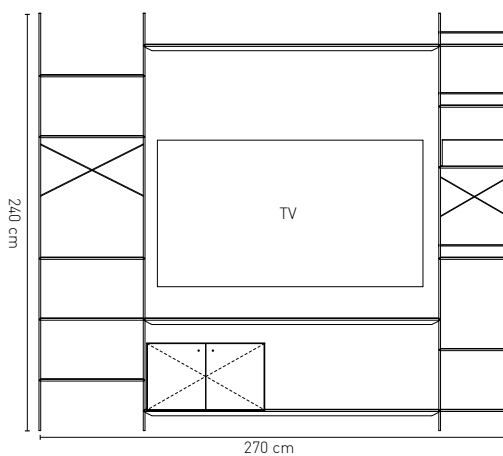

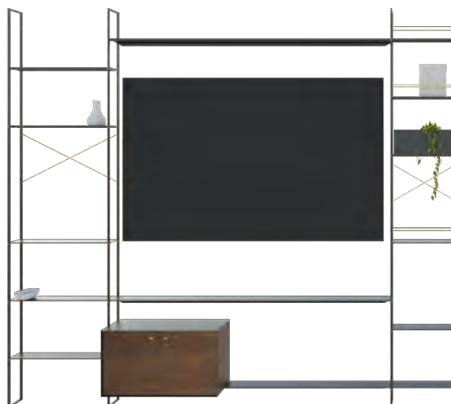

270W×240H×10/40D cm

Specification:

4 frames, 10 shelves, a shelf for an open book, brass rails, an open area for a TV (up to 70 inches), and a steel box with wooden hinged doors.

Pricing:

23,700-28,800 nis
(including VAT)

Examples of Custom Designs

ANNA

ANNA is a light and delicate shelving system, defined by an airy presence, slim proportions, and precise connection details. Built around a fine steel structure, it brings a sense of lightness to the space while remaining practical and adaptable.

Available as fixed units or through a fully customized design process, ANNA can be adapted to different spaces, needs, and styles. Its slim proportions and precise connection details give the system an almost floating quality, while keeping the overall presence light and open.

Fixed elements:

- Steel 10*10 mm thick rods, with Epoxy powder coating finish (RAL colors).
- 3 mm thick steel shelf with Epoxy powder coating finish.

Step 2 | Add or Remove Elements

Customize the composition by adding or removing optional elements.

Step 3 | Select Materials & Finishes

Choose from our range of materials, colors, and finishing options to create a shelving system that fits your interior and personal style.

Step 4 | Order Confirmation & Payment

Once the composition, modules, and finishes have been finalized, we prepare the final quotation and confirm the order.

Step 5 | Production

The shelving system is manufactured in our workshop according to the approved specifications.

Step 6 | Delivery & Installation

Upon completion, our team delivers and installs the shelving system on site, ensuring every component is assembled and fitted according to the approved design.

UNIT A

Dimensions:

120W×70H×30D cm

Specification:

3 steel shelf levels, top shelf with a bent section for an open book, and 3 flexible leather magazine holders.

Pricing:

9,000-9,450 nis
(including VAT)

UNIT B

Dimensions:

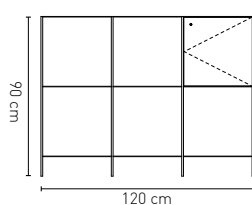

120W×90H×30D cm

Specification:

3 steel shelf levels, closed box with metal hinged door.

Pricing:

6,800-7,600 nis
(including VAT)

UNIT C

Dimensions:

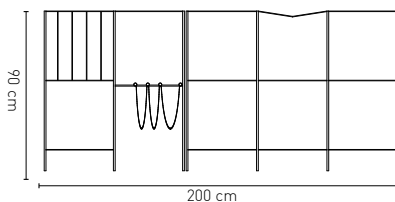

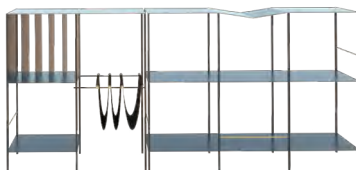

200W×90H×30D cm

Specification:

System made of 2 sections with brass connection details between them. 3 shelf levels, top shelf with a bent section for an open book, and 3 flexible leather magazine holders.

Pricing:

11,150-14,750 nis
(including VAT)

UNIT D

Dimensions:

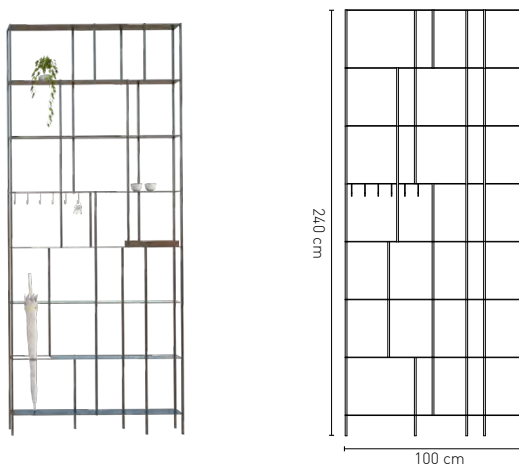

100W×240H×10D cm

Specification:

Narrow entrance system. 8 shelf levels, hooks, wooden tray, umbrella storage area, and brass rods.

Pricing:

11,600-13,275 nis
(including VAT)

UNIT E

Dimensions:

300W×240H×30D cm

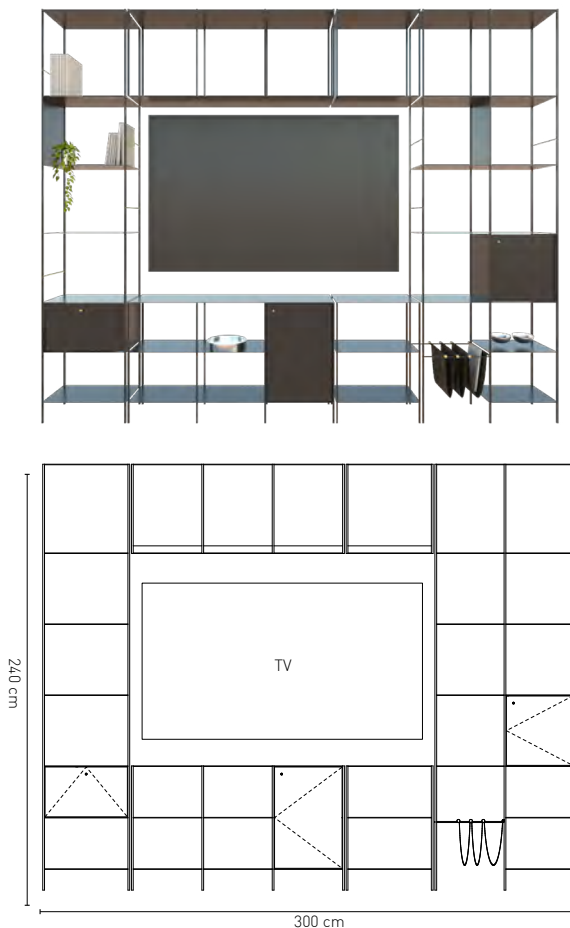

Specification:

System made of 6 sections with brass connection details between them, including an upper section below the TV area (up to 75 inches) with a reinforcing beam.

7 shelf levels, 2 closed compartments with metal hinged doors (one double and one single), 1 drawer with metal front, 3 flexible leather magazine holders, and brass side rods.

Pricing:

33,150-38,900 nis
(including VAT)

UNIT F

Dimensions:

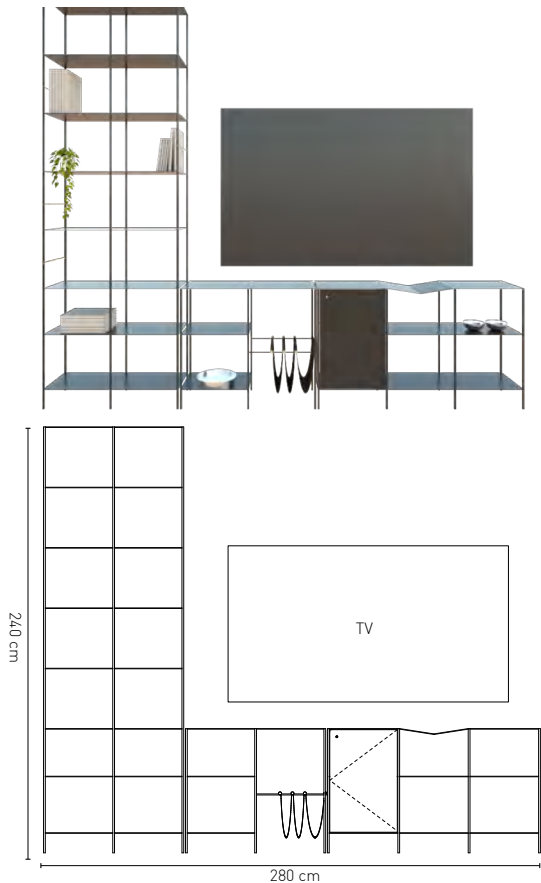

280W×240H×30D cm

Specification:

System made of 3 sections with brass connection details between them. Low section includes 3 shelf levels and high section includes 8 shelf levels. Large double closed compartment with metal hinged doors, bent shelf for an open book, 3 flexible leather magazine holders, and brass side rods.

Pricing:

20,600-24,800 nis
(including VAT)

UNIT G

Dimensions:

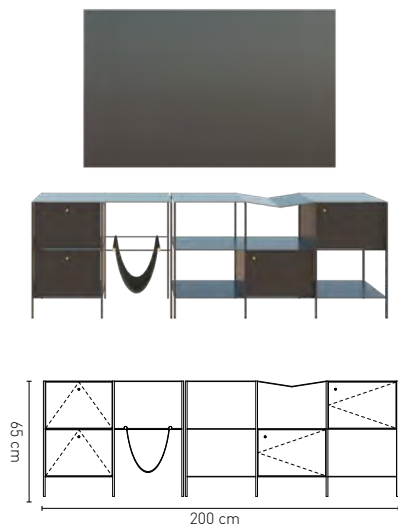

200W×65H×30D cm

Specification:

System made of 2 sections with brass connection details between them. 3 shelf levels, 2 closed compartments with metal-front drawers, 2 closed compartments with metal hinged doors, and 1 flexible leather magazine holders

Pricing:

8,300-17,650 nis
(including VAT)

Completed system

Examples of Custom Designs

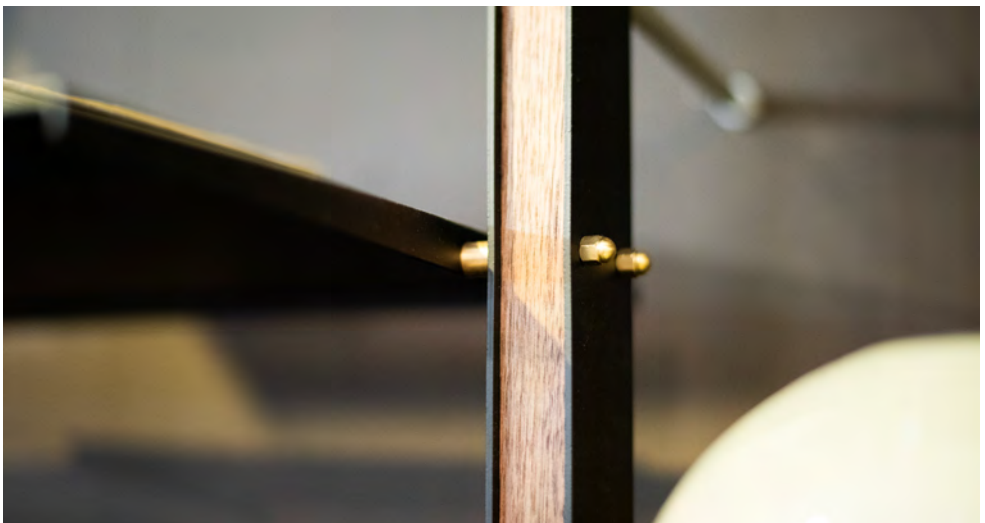

NECCHI

The ***Necchi*** shelving system is the perfect combination between practicality and complex design.

The skeleton of the system is made from steel columns that support its various elements, connected by brass details.

The system offers two column configuration options: a solid double-steel post, or a column combining two steel plates with a wooden core.

Photographer: Shai Epstein

Necchi is a modular system, giving you complete freedom to place the shelves and storage units according to your needs, and to choose the details and finishing materials. The system is priced according to size and specification: the number of units, as well as the size and type of the element.

Image By: Meny Sayag Architects

After confirming the first price assessment, the customer will receive an accurate quote according to the finishing details and dimensions. The design process, which includes simulation of the library, will be carried out after an advance payment (usually 10% of the total amount). There is no limit to the amount of time or number of options in the simulation process.

ELEMENTS

- **Column A:** Two steel rods 10*10 mm (Epoxy powder coating finish, RAL colors) with brass and aluminium connection details.
- **Column B:** Two steel plates (Epoxy powder coating finish, RAL colors) with wood in between
- **Column C:** 18*18 Steel rod (Epoxy powder coating finish, RAL colors)

Each column has holes at regular intervals that allow for a modular connection of the various elements.

- Steel Shelf S/M/L/XL (Epoxy powder coating finish, RAL colors).
- Steel Box S/M/L/XL (Epoxy powder

coating finish, RAL colors).
Glass/Steel/Brass/Aluminium door

- Lamp
- Wooden Box S/M/L with steel sides (Epoxy powder coating finish, RAL colors). Glass/Steel/Brass/Aluminium hinged door (sliding or hinged door)
- Steel Box S/M/L with drawers (Epoxy powder coating finish, RAL colors), wood/steel front.

ALTO

ALTO is based on a system of modular units made from aluminum surfaces, stacked and arranged both vertically and horizontally – customized to suit the client's needs.

The units, available in three different sizes (30, 60, 90 cm), appear to float upon one another, connected by small joining details that highlight the clean lines and elegance of the thin aluminum surfaces, creating an airy feel

throughout the entire system. In many ways, the essence of the bookshelf lies in the connection points between the various components, both horizontally and vertically.

In addition to the fixed units, different elements can be added: backs, vertical partitions (in 15 cm increments), hinged doors or drawers to create closed storage units, and light boxes as part of the system.

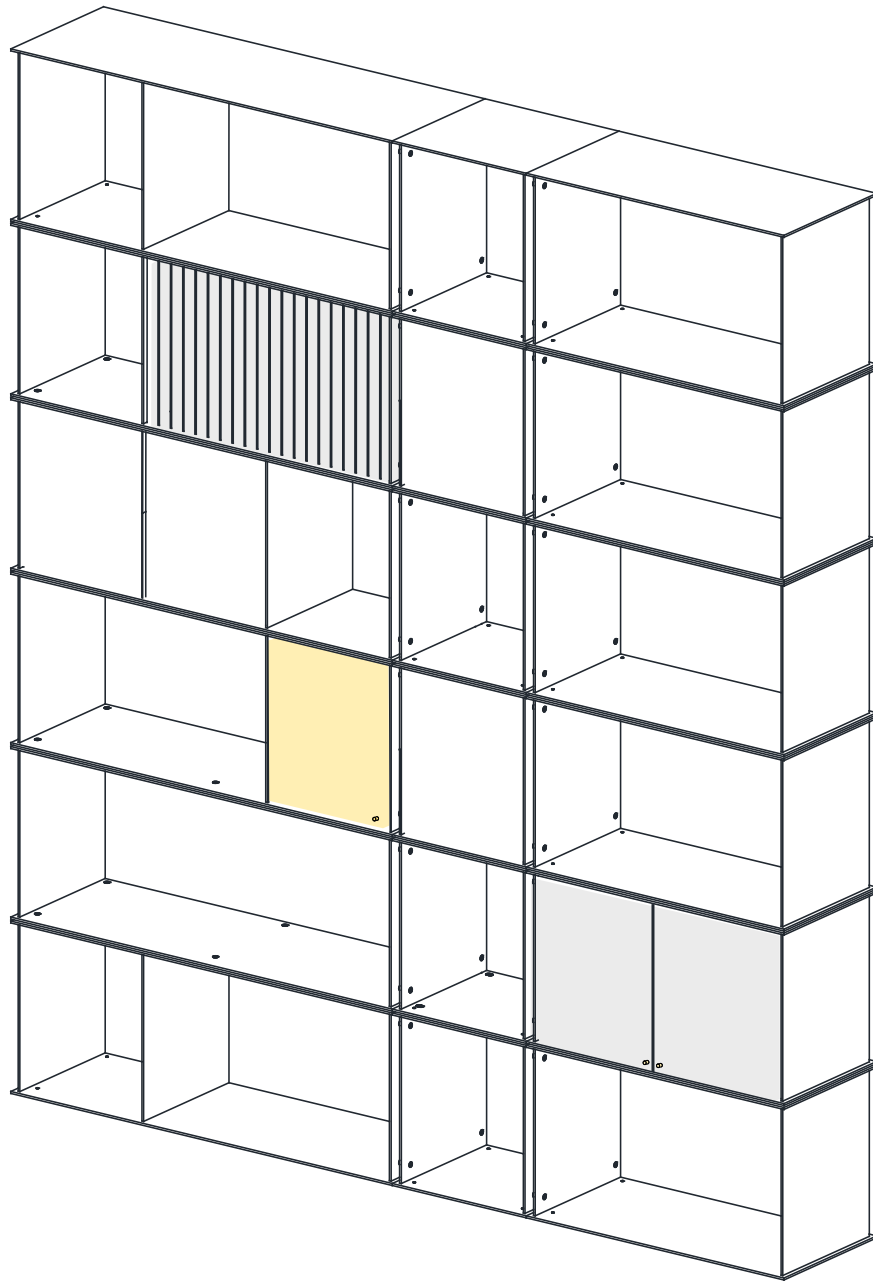

After confirming the first price assessment, the customer will receive an accurate quote according to the finishing details and dimensions.

The design process, which includes simulation of the library, will be carried out after an advance payment (usually 10% of the total amount). There is no limit to the amount of time or number of options in the simulation process.

MIX AND MATCH:

Select the size, elements, and composition to
create your own personalized system.

System finish:

The finishing materials of the system are also customized:

- Exposed aluminum or aluminum with color finish (RAL color)
- Hinged doors and drawers front: Wood (American walnut, natural oak, or maple) / Aluminum / Brass / Glass.
- Light box: Plexiglass

ELEMENTS

BECCO

The **BECCO** shelving system was inspired by the idea of a cast brass fitting that connect the columns to the shelves.

Designed as a modular system, it consists of fixed modules and parts that allow you to mix, match, and create a personalized and unique system tailored to your needs and space.

The fixed components of the system include rectangular-section aluminum columns,

available in 30 cm increments, placed 60 cm apart. Between the columns, shelves in two sizes – 80 cm or 140 cm – can be combined to create the desired composition.

The system also offers the option of adding closed storage boxes made of aluminum frames, wooden sides, and hinged doors in a finish of your choice.

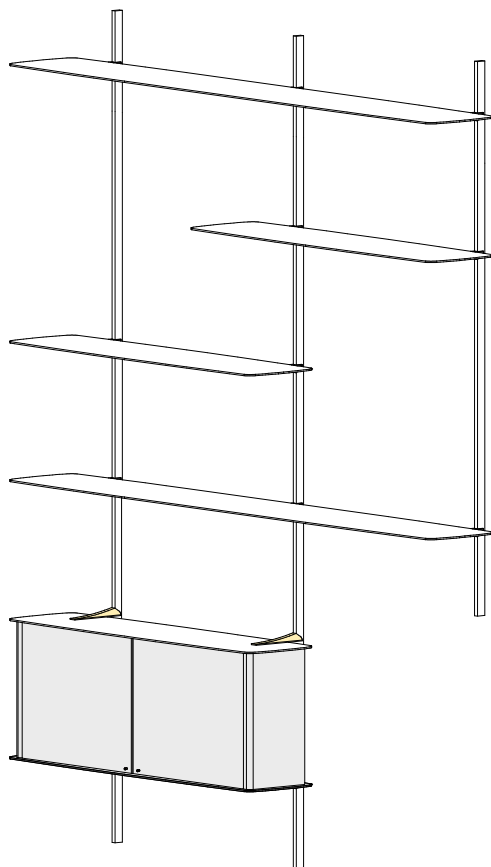

After confirming the first price assessment, the customer will receive an accurate quote according to the finishing details and dimensions.

The design process, which includes simulation of the library, will be carried out after an advance payment (usually 10% of the total amount). There is no limit to the amount of time or number of options in the simulation process.

MIX AND MATCH:

Select the size, elements, and composition to
create your own personalized system.

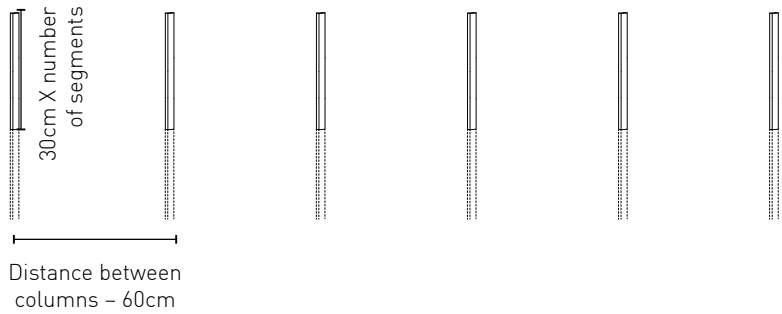

System finish:

- Shelves and columns:
Aluminum with color finish (RAL color)
- Connection details:
Cast brass fittings
- Box sides:
Wood options – American walnut,
natural oak, or maple
- Box Hinged doors:
Wood/Glass/Steel/Brass.

Column:

Rectangular-section aluminum columns
available in 30 cm segments, up to 300 cm in length

Cast brass detail: Connection detail between the
vertical columns and shelves

Shelf:

available in two lengths: 80 or 140 cm

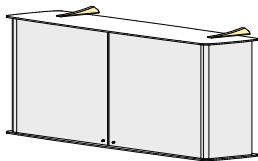

shelf 80cm

shelf 140cm

Storage box:

top and bottom made of aluminum, sides made of wood,
hinged doors made of wood (or another material of choice)

Box 80cm
