

moon

The MOON table derives its name from its three curved steel legs, resembling moons. The interplay of the legs' radius and their configuration generates a dynamic composition, resulting that the table appears different from every angle. The table is customizable in terms of size (diameter) and of finishing materials for the top, including painted steel, wood, or marble.

DIMENSIONS:

Ø80

Height: 40 cm

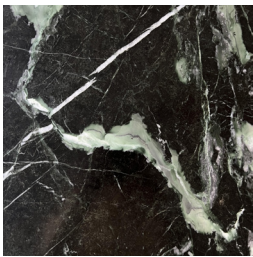

MATERIALS:
steel, marble

LEGS

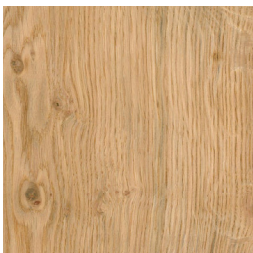

POWDER COATED
STEEL

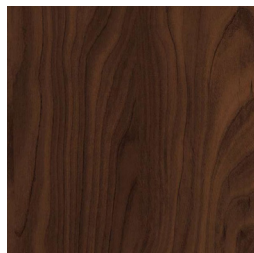

TOP
