

**ALTO**

SHELVING SYSTEM

**ALTO** is based on a system of modular units made from aluminum surfaces, stacked and arranged both vertically and horizontally – customized to suit the client's needs.

The units, available in three different sizes (30, 60, 90 cm), appear to float upon one another, connected by small joining details that highlight the clean lines and elegance of the thin aluminum surfaces, creating an airy feel throughout the entire system.

In many ways, the essence of the bookshelf lies in the connection points between the various components, both horizontally and vertically.

In addition to the fixed units, different elements can be added: backs, vertical partitions (in 15 cm increments), hinged doors or drawers to create closed storage units, and light boxes as part of the system.

After confirming the first price assessment, the customer will receive an accurate quote according to the finishing details and dimensions. The design process, which includes simulation of the library, will be carried out after an advance payment (usually 10% of the total amount). There is no limit to the amount of time or number of options in the simulation process.

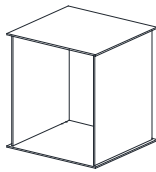

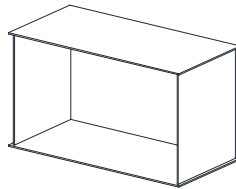

### Units:

3 sizes  
(30/60/90cm)  
With/Without  
back panel

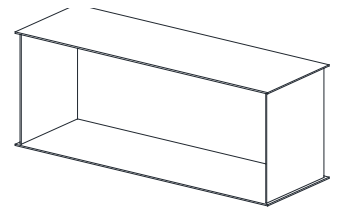

30cm

60cm

90cm

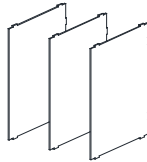

### Vertical dividers:

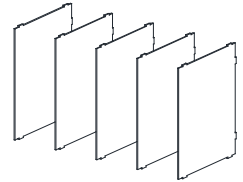

in 15 cm  
segments

max 1 divider

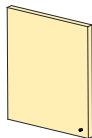

max 3 dividers

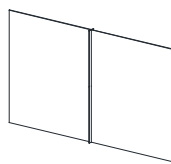

max 5 dividers

### Closed units:

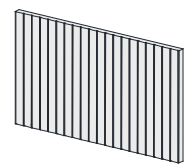

Hinged doors  
/ Drawer

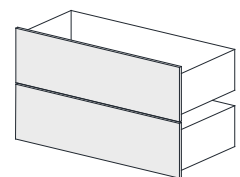

Brass hinged  
doors

Aluminum  
hinged doors

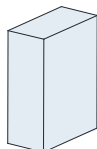

Wooden  
hinged doors

Drawer (wooden front)

### Add-ons:

Light box

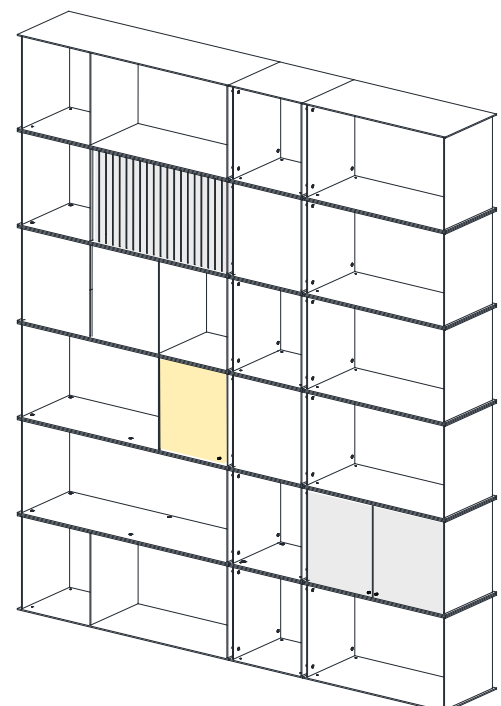

### MIX AND MATCH:

Select the size, elements, and composition to  
**create your own personalized system.**

### System finish:

The finishing materials of the system are also customized:

- Exposed aluminum or aluminum with color finish (RAL color)
- Hinged doors and drawers front: Wood (American walnut, natural oak, or maple) / Aluminum / Brass / Glass.
- Light box: Plexiglass
